

Wonderful Information on Fund Balances

With all of the discussion about delayed aid payments, fund balances, and potential cuts from the state, it can be hard to sort it all out. Today, MASBO (MN Assn of School Business Officials) put out a statement about fund balances that is an excellent document to use with your staff, public and legislators to explain why we have fund balances and the impact of not having them.

We thank Connie Nordquist of MASBO for sharing this with us!
